**Our team of experienced, skilled providers are here to take care of all your female health care needs. At Women's Integrated Health Care, the needs of our patients come first!**

**With a combined 80 years of experience, you can trust that you will have the most comprehensive gynecological and obstetrical care in the area.**

## Patient Testimonies

"I have been a patient at Women's Integrated since they first opened. My experience has been nothing but exceptional every step of the way."

"The doctors and staff have always been responsive, caring and knowledgeable. I am so impressed with Women's Integrated Health Care!"

"I've tried a few different offices, but women's integrated health is by far the best!"

# Comprehensive Care Through All Stages of Life

## Pregnancy >>>

Our goal is to help you have a healthy pregnancy. Our providers offer preconception counseling.

Our dedicated OB nurse is available whenever you have questions.

Our office is equipped to handle all your OB needs. We offer genetic screening, gender testing, in office ultrasounds and antenatal testing. Meanwhile, you have the comfort of knowing your OB doctor is right down the hall from Labor and Delivery!

## Contraception >>>

WIH offers contraception options to fit your lifestyle and needs.

## Routine Wellness >>>

Our goal is to help you feel at ease during routine examinations and comfortable discussing sensitive topics.

## Menopause >>>

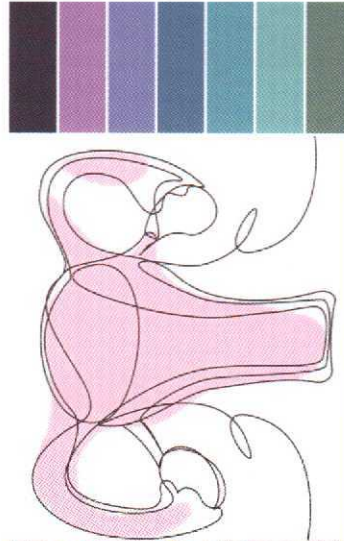

Hormone Replacement Therapy

## In Office Procedures >>>

We are here to help. Many of your health concerns can be handled in the comfort of our office.

We offer:

- Colposcopy
- LEEP procedures
- Hysteroscopy
- IUD insertion
- Endometrial ablations
- Cystoscopy
- Urodynamic testing

## Surgery >>>

We use minimally invasive surgical procedures to correct your specific gynecological problem without tampering with other elements of your body.

Some surgeries are even performed with the assistance of the Da Vinci Robot.

We offer the following advanced surgical procedures:

- Advanced laparoscopic and hysteroscopic surgery
- Tubal ligation
- Hysterectomy
- Myomectomy
